

## FARMERS MAY BE GIVEN WHEAT ALLOTMENT, '54

Adams County farmers may be under a wheat allotment program during 1954, Martin T. Walter, Biglerville, R. D., chairman of the Adams County Production and Marketing Administration announced today.

As a result, the PMA urged farmers who did not seed wheat during the past three years and who wish to plant wheat for 1954 to make application for an acreage allotment.

That application must be filed by June 30, the PMA committee said, because the federal government is scheduled to take action July 1 on wheat quotas and allotments, and if quotas or allotments are decreed, they will go only to those who are already listed with PMA as wheat farmers.

If the U. S. Secretary of Agriculture calls for wheat quotas on July 1, as now seems likely, Mr. Walter said, the county PMA will have the duty of sending out allotments to all wheat farmers by mid-July. The allotments must go out quickly to permit any farmer wishing to appeal an allotment before a national vote is taken among the farmers on the quota program. If the quota is voted down—that is, if 66 2/3 per cent of the farmers voting do favor it—then allotments will still be issued, but the penalties imposed under the quota system will not be carried out.

### Survey Shows Acreage

A survey made by the PMA this summer shows that 2,043 farmers in Adams County put 26,813 acres to wheat in 1951, 27,104 acres in 1952 and 27,078 in 1953—the crop currently ripening. From that acreage the county produces more than 500,000 bushels per year.

Since the PMA has the acreage of those who planted wheat the past three years, the only ones who will need apply for allotments are those who did not seed wheat during that period, Mr. Walter explained.

If the Secretary of Agriculture proclaims a national quota, as the law at present requires, that will be broken down proportionately through the nation, and the Adams County farmers will receive an allotment of whatever portion of their previous production the reduction percentage gives them.

### Billion-Bushel Crop

Tremendous wheat production during the past few years has led to the imposition of quotas or allotments, the PMA officials said. Since 1943 the national wheat crop has exceeded 1,000,000,000 bushels each year, with one exception. Present indications are that this year another billion-bushel crop will be produced.

Since only 700,000,000 bushels of wheat are consumed in this country each year, the surplus from the 1953 crop will add to the present 375,000,000-bushel surplus in warehouses and on farms, Mr. Walter said.

Under the law the Secretary of Agriculture can dispense with a national wheat acreage allotment only in a national emergency or a material increase in exports. If quotas are called for and approved at the vote by the wheat farmers on July 25, then 90 per cent of party will be paid those farmers adhering to their quotas and penalties will be enacted on those who go beyond them. If only allotments are called for, then party payments will drop to 50 per cent.

For this year's crop the price support figures remain high. The Adams County loan price for No. 2 barley in farm storage is \$1.37 per bushel, compared to a 99-cent price at present on the open market. The price for No. 1 wheat in Adams County, stored on the (Continued on Page 3)

## Says Blight Severe On Tomato Plants

Early blight is severe, County Agent M. T. Hartman said today reporting that spray applications on tomatoes "should be underway and regular applications should be made at ten-day intervals."

Mr. Hartman urged a combination of one and one-half pounds of DDT plus one pound of a 50 per cent fixed copper per 100 gallons of spray. Pointing out that when the spray turns brown it loses its effectiveness, he suggested addition of either a half pound of powdered skim milk or a half pound of soy flour to the 100 gallons of spray to reduce the reaction which causes the spray to turn brown.

Two pounds of a wettable 50 per cent DDT powder per 100 gallons of spray may be used to control flea beetles and potato bugs if they are a problem, Mr. Hartman said. He warned against using TEPP on tomatoes.

## EXTENSION CLUB HEARS TALK ON PICTURE-TAKING

Philip Tyson spoke on "How to Get Better Pictures" at the June meeting of the Adams County Senior Extension Club held Thursday night at the Scout Cabin in York Springs.

He outlined use of different cameras, filters and films to produce varying effects and urged the making of more pictures by everyone as a record. "A picture is a slice of time caught on film," he said.

Plans were made for the weekend camp at Camp Thompson, Laurel Lake, today, Saturday and Sunday. In addition to Adams County members from the Cumberland, Franklin, Fulton and Perry Senior Extension Clubs are also scheduled to attend the camp. A program of swimming, games, campfires, singing and similar activities is planned.

### Discuss Tour

A lengthy discussion was held on the annual tour to be made by the club, with no decisions reached at Thursday's session. Among places suggested are the Fairchild airplane and Moller organ plant at Hagers-town, and plants in the Pittsburgh area. A committee comprising William Wilson, Roland Kline and Teresa Murren was appointed to make arrangements for the trip, to be held either the latter part of July or early August. Discussion was also held on plans for the float to be entered in the Fourth of July parade at Gettysburg.

Plans were outlined for a picnic July 10 at which the local club will be guests of the Cumberland County club at a park at Mechanicsburg. The group voted to hold a swimming party in connection with the next meeting.

Valley Forge on 24 February 1953. Ensign Clapsaddle, while flying as a member of a flight of carrier-based fighter planes on a strike mission over Communist-held North Korea in the Wonsan area, effectively pressed his attacks against enemy coastal defense installations. Despite intense and accurate small arms fire, he carried numerous rocket and strafing attacks to a low level against storage buildings, destroying four buildings with direct rock-

"We got a terrific jolt as though we had gone over a big bump. I was thrown against the seat in front of me and we came to a sudden stop and then a quick twist. ## ARENDSVILLE TO HAVE THREE NEW STREETS

Arendtsville residents, with the aid of the Arendtsville School Board, are completing the rough grading of three new streets in the borough at what Dr. Fred Lewis, secretary of the school board, said was at only slight cost to the latter, which will open an entire new area for residential development in that borough.

Some time ago the Upper Adams Joint School Board purchased land in Arendtsville and in Biglerville for new grade schools. Because of the greater-than-anticipated cost of the proposed buildings, construction was postponed. The Arendtsville school plot has a frontage of approximately 2,500 feet, north of Main St., and east of Pearl St.

The new streets being laid out are on three sides of the school property. They also open up for residential development, an additional 2,500-foot frontage owned by several Arendtsville residents who have aided financially and otherwise in the street work.

### In Desirable Section

Among those interested are Orville Orner, Harvey W. Dickert, Dr. Lewis, Clair Taylor, Robert and Mildred Heckenluber, Heckenluber Brothers, Lloyd Garretson, Charles Dillman and Mrs. M. E. Knouse.

The eventual full improvement of the streets, laid out to be 38 feet in width, will not only give modern streets around the school when it is built, but will stimulate the building of new homes in this area, Dr. Lewis and others believe.

The area is in one of the most desirable sections of Arendtsville, part of the tract, including 12 building lots, extending to Cone-wago Creek. Of the 15 acres of school property, part will eventually be developed as a playground, Dr. Lewis said.

If usual steps are followed, the school and abutting property owners will, at some future time, deed the land for the three streets to the borough and ask that it be ordained as streets and fully improved.

## South Koreans Smash 10,000 Red Chinese In New Drive

### By MILO FARNETI

SEOUL (AP)—At least 13,000 Chinese Reds hit Allied lines on both ends of the Korean battlefield today, but hard-fighting South Koreans hurled back most of 10,000 Communists who attacked eight strategic outposts in the west.

U. S. Sabre jets shot down two Communist MIG jets and damaged one in air battles over North Korea this afternoon.

The big-scale Red assaults opened the fourth year of war on this battered peninsula.

Heavy fighting still raged on the East-Central Front where 3,000 Communists attacked ROK positions near the junction of the Pukhan and Kumsong Rivers.

It was in this sector that 30,000 Chinese shoved Allied lines back at least two miles two weeks ago in the biggest Red assault in two years.

### Most Driven Back

The Eighth Army said the new attacks left U. S. and other foreign troops virtually untouched and concentrated on ROK positions.

The main weight of the Red assault fell on Allied lines blocking one of the old invasion routes to Seoul. But the Army said most of the Chinese were thrown back from eight important hill outposts west of Yonchon, in the Little Nori and Old Baldy sector.

Incomplete reports from the front said the Reds had lost 3,700 men killed and wounded up to 7 a. m.

The South Koreans lost some (Continued on Page 3)

## FRANCE GETS NEW PREMIER

PARIS (AP)—Joseph Laniel today was approved as premier of France's 19th post-war government ending the 37-day governmental crisis that has twice delayed the Big Three Bermuda conference.

Paris newspapers had attributed Laniel with the courage of Daniel in bearding the lions' den—the National Assembly which had previously turned down four premiers.

Unofficial tallies indicated that Laniel had received 366 votes in the balloting which came with hardly any debate on the brief program which Laniel presented this morning.

## GARRETSON IS REELECTED HEAD OF CHERRY UNIT

Ryland Garretson, Bendersville, was re-elected president of the Pennsylvania Cherry Growers Association at the annual meeting of the organization Thursday evening in the Biglerville auditorium.

William Lower, Biglerville R. D., was elected vice president and John Baugher, Aspers R. D., was named secretary-treasurer.

Plans were made to ask cherry growers in the county to sign an agreement whereby processing plants would deduct one-tenth of a cent per pound (\$2 per ton) from the cherries they bring to the canners. That money will be forwarded to the organization which will use part of the annual Pennsylvania Cherry Pie Queen contest, and the remainder will go to the National Cherry Institute for use in advertising.

A similar program two years ago proved so successful that the organization was able to carry on its work last year without asking additional funds, Garretson said.

### Appeal To 240 Growers

Parker Koontz and Thomas Oyley were named to the advertising committee to contact processors concerning the plan. Return cards will be mailed the 240 growers, asking them to sign up for the deduction. In addition all members present at Thursday's session were asked to see their neighboring growers concerning the deduction, and a group of volunteers will be at the unloading centers at the processing plants to explain the program to growers bringing their cherries to the plants.

William Powell, Chicago, secretary of the National Red Cherry Institute, outlined the work of his organization in conducting the National Cherry Pie Queen contest, in securing "tie-in" advertising with ice cream, pastry and other manufacturers, sending kits to grocers for advertising, and placing ads in national magazines.

### Must Create Demand

"The cherry grower must be interested in his product until it is sold," Powell said. "Cherries are in competition with all other foods—because it is just one of the many foods. It must be advertised if it is to be sold. A demand must be created for cherries. I think our program has been successful, but it must continue if we are to keep consumption up to production."

He added that nationally, during the past few years, the per capita annual consumption has increased from 1/4 pound to one pound, eight ounces.

Powell reported that estimates of the crop show it to be about the same, or slightly larger over last year, when the nation had a short crop of cherries. Nationally the crop estimate is 206,000,000 pounds, as compared to 199,000,000 pounds purchased last year. The Pennsylvania estimate is for 11,000,000 pounds, or slightly better than last year. The Adams county area produces about one-half of the cherries grown commercially in the state.

### "Still In Business"

Dr. Fred Lewis, of the Arendtsville fruit laboratories, said "contrary to rumor we are still in business, and our business is increasing every day." He explained that news reports on the planned dissolution of the South Mountain Fruit Research Laboratories, Inc., "must have caused people to become confused (Continued On Page 3)

## RAILROADS ASK BIG BOOST FOR CARRYING MAIL

WASHINGTON (P)—The railroad industry today asked an increase of at least 45 per cent in payments for hauling the U. S. mail.

A petition for the rise was filed with the Interstate Commerce Commission only 24 hours after Postmaster General Summerfield appealed to Congress for a general postage-rate advance.

The Post Office Department is running millions of dollars in the red each year and Summerfield asked the postage rate hike—including a boost from 3 cents to 4 cents for letter mail—to close part of the gap between revenue and spending.

Yield 241 Million  
Summerfield estimated that the rate hikes he asked would yield close to 241 million dollars a year in additional revenue.

Should the ICC grant the pleas from the railroads for higher mail pay, the increase in transportation billings to the Post Office, amounting to about 143 millions a year, would absorb more than half of the revenue increase sought through higher postal rates.

In the petition to the ICC, the railroads said they are hauling the mail at a loss and an increase in their compensation is essential.

They said that in 1952 they received 319 million dollars for their postal-transportation service while it cost them 450 million dollars to handle it.

Had Large Increase  
The petition said that not less than a 45 per cent hike in mail pay is required, and that the ICC should authorize even more than that if the evidence which the carriers will present at a public hearing warrants it.

The railway mail pay rates were last revised by the ICC in a proceeding extending from early 1947 to late 1951. The compensation to the railroads was advanced then in a series of staggered increases by a total of 95 per cent.

WASHINGTON (P)—The House Democratic leadership today threw its influence against the Eisenhower administration's tactics of bypassing the tax-writing Ways and Means Committee in its battle to get extension of the excess profits tax.

Acting Democratic Leader McCormack (Mass.) served notice he would make a fight of it—on the basis of objections to the procedure—when the issue comes to the House floor, probably Monday.

Nevertheless, House Speaker Martin (R-Mass.) predicted overwhelming Republican support and certain victory for President Eisenhower in an expected bruising floor battle.

"Only a very small number of Republicans will fail to support the President," he predicted. "If Democrats vote against the rule, (the proposal to take the tax bill up by extraordinary procedure), they will be in the position of joining these few Republicans in denying a House vote on the issue and defeating the financial program of the administration."

LOS ANGELES (P)—President Eisenhower, in a letter read today to the American Library Association, criticized "zealots" who would deny "freedom's friends the opportunity of studying communism in its entirety—its plausibilities, its falsities, its weaknesses."

"As it is an ancient truth that freedom cannot be legislated into existence, so it is no less obvious that freedom cannot be censored into existence," the President wrote. "And any who act as if freedom's defense are to be found in suppression and suspicion and fear confess a doctrine that is alien to America."

The President's message was read to the 4,000 librarians attending the 72nd annual conference of the American Library Association by its president, Robert B. Downs.

Downs, director of libraries at the University of Illinois, said Eisenhower's letter was in reply to a letter Downs wrote him immediately after the President's commencement address at Dartmouth College June 14. Downs said his letter "expressed appreciation of the President's presentation of the freedoms to which the work of librarians is dedicated."

In the Dartmouth address, Eisenhower said that communism can be fought effectively only by knowing it, and he cautioned against joining "the book burners" who would bar knowledge of communism

# Eisenhower Is Facing Tough Congressional Struggle Over Excess Profits Tax Extension

By JAMES MARLOW

WASHINGTON (AP) — President Eisenhower's request to Congress to continue the excess profits tax another six months is now hip-deep in a question of Democratic processes and congressional practice.

Some congressional tempers are red hot in the struggle between the President and Rep. Daniel A. Reed, New York Republican and oldest Republican in continuous service in the House.

Eisenhower may get his way on the excess profits tax or he may not. But this is the story as of now. The tax automatically expires next Tuesday unless Congress votes to continue it, although it can do so retroactively. Eisenhower says the government needs the money from this tax on corporations. Weeks ago he asked Congress to continue it until Dec. 31.

"Stubborn Reed" He ran head-on into the fiery and stubborn Reed who is chairman of the House Ways and Means Committee. This Committee, which handles tax matters, is one of the most powerful in Congress. Chairmanship of it makes Reed one of the most important men in Congress.

Since the house, not the Senate, initiates tax legislation, the question of giving or refusing Eisenhower what he wanted had to start in the House. Specifically it had to start with Reed's committee.

It's the job of a committee to consider a piece of legislation from all sides before deciding, by a vote of the members, whether to recommend it to the full House—or Senate—for action.

Reed had long opposed continuing the profits tax beyond June 30. But, out of deference to Eisenhower's request, he permitted his committee to hold hearings.

Usually after hearings a committee votes. But Reed refused to call his committee together to vote on the tax extension.

Since the tax was to expire June 30, all Reed had to do was to keep his committee from voting before that date. The tax would then—under usual procedure—die on schedule, as Reed wanted it to.

This raises an obvious question: Is it Democratic that one man, like Reed, can bottle up a piece of legislation by preventing a majority of his committee or, eventually, the whole House from voting on it?

Democratic or not, that's what Reed intended to do. And there weren't any very loud protests from the House or the committee as a whole. In Congress the powers and prerogatives of committee chairmen are greatly respected. After all, everyone in Congress is a potential chairman himself.

Test Of Leadership It is quite possible the majority of Reed's committee, if given a chance, might side with him against Eisenhower and a majority of the House, if given a chance, might do the same.

But since Eisenhower had made an issue of extending the tax, it had become a big test of his leadership with his own party. So his Republican leaders in the House had to go into action.

Yesterday Rep. Charles Halleck of Indiana, leader of the House Republicans, asked the House Rules Committee to pull the extension legislation out of the hands of the ways and means committee and let the full House get a chance to vote on it.

This was extraordinarily rough action, according to the rules of congressional conduct. It's extremely unusual for the rules committee to yank a piece of legislation out of a committee to which it has been properly assigned.

## Up To Rules Committee

But the rules committee has the job of deciding what legislation the House can vote on. And that's why Halleck went to it for help.

After a stormy session in which Reed hinted he might quit Congress if he and his ways and means committee were bypassed by the rules committee, the latter voted to do just that and let the House vote on the issue.

In all these committees Republicans have a majority. So what was happening, although a number of Democrats on Reed's committee sided with him, was an intra-party fight. Needless to say, Democrats in general enjoyed seeing the scuffle.

## FARMERS MAY

farm, will be \$2.41 per bushel, compared to a market price at the present moment of \$1.70.

Received \$25,069.86

Last year 35 farmers in the county put 11,585.7 bushels in storage and received for that amount \$25,069.86.

No. 1 wheat going into storage at either Cargill in Marietta or at Altenwald or Lemasters in Franklin Co. will receive a lower price, because the storage fee is subtracted from the loan price. Wheat moving into Marietta from June 9 to July 9 is receiving a \$2.27 top price; from July 10 to August 8, \$2.28; from August 9 to September 7, \$2.29; from September 8 to October 7, \$2.30; from October 8 to November 1, \$2.31; from November 2 to November 21, \$2.32, with the continued addition of a penny approximately every three weeks. Those storing in Franklin County are currently receiving \$2.29 with a one-cent addition on the same dates as listed for Marietta.

The interest rates on the wheat loans this year will be four per cent and the date which farmers must repay the loans or turn their wheat over to the government is April 30, 1954. PMA officials said farmers planning to store wheat on their own farms can receive, through the PMA, funds at 4 per cent interest to build suitable storage facilities. Those planning to store wheat are asked to visit the PHA office, York St., first to secure complete details.

pilot came back and opened the door so we could get out. Believe me, we were a bunch of scared boys. No one knew what to think.

"When I got out and looked back at the plane I could have fallen over. I don't see how we ever got out without being badly hurt. It was what I call a miracle. The left engine was torn off, the right engine was badly damaged, all the landing gear was broken, the left wing started to break, and the body was damaged. Inside the plane, it was a terrible mess. Everything from the back flew up front.

"A thermos jug from the rear just missed by head. It hit me on the leg and the water flew all over me. My leg was just bruised slightly which was all that happened to me. Two boys had muscles pulled in their backs and one got a badly sprained ankle. The rest were only bruised or shaken. We were all checked by a doctor and then taken to Fort Benning, Ga., where we stayed for the night. The next day we went to Camp Rucker, Ala., by bus.

Pvt. Howe wrote that it was hot in Alabama. "It was 105 degrees here today." They tell us it gets up to 125 or 130 some days," he wrote. "There are a lot of snakes, most of which are poisonous, rattlesnakes, coral snakes and water moccasins."

Pvt. Howe enclosed newspaper clippings of the air crash, which said the plane ran off the "lid of the air strip and dropped into a field less than 150 feet from the spot where an Eastern Air Lines DC3 crashed on June 2.

Sill, Okla. in 1926, and the Command and General Staff School in 1936. He served for three years on ROTC duty at Auburn, Ala., and for four years as an instructor with the artillery of the New York National Guard.

In World War II General Barth was with the 27th Division, New York National Guard; the 9th Infantry as chief of staff in North Africa, Sicily and on the Normandy landing; with the 90th Infantry Division as regimental commander of the 357th Infantry in Normandy and with General Patton's Third Army in the break-through across France. He was wounded in action near Metz in October, 1944.

After 20 months' hospitalization, he returned to active duty as professor of military science and tactics at New York Military Academy in 1946. He served as director of operations and training department and later as chief of staff at the Command and General Staff College at Fort Leavenworth.

He was promoted to brigadier general in July, 1949, and served in Japan until July, 1950, as artillery commander of the 25th Infantry Division. He flew to Korea on July 4, 1950, serving on temporary duty with the 24th Infantry Division until July 17. He then rejoined the 25th Division until June, 1951. He returned to the United States and was assigned to the Fifth Division at Indiantown Gap as assistant division commander. He assumed full command of the division on December 1, 1952, and was promoted to major general March 16, 1953.

His decorations include the Distinguished Service Cross, Silver Star with two oak leaf clusters, Legion of Merit with oak leaf cluster, Air Medal and Purple Heart.

The battle anniversary will open on the evening of June 30 and continue through July 5.

## TRUST LAWS TO BE STUDIED BY SPECIAL GROUP

WHITE SULPHUR SPRINGS, W. Va. (AP)—Atty. Gen. Brownell today proclaimed a middle-of-the-road policy in the anti-trust field, but he said there will be "no winking" at violations of the monopoly laws.

Brownell pledged no wholesale dismissals of the big batch of anti-trust actions which he inherited for prosecution from the Democratic administration.

At the same time, he announced he proposes to set up "the attorney general's National Committee to Study the Anti-Trust Laws."

Composed of lawyers, economists and jurists, the group will survey every angle of the present statutes dealing with business regulations, Brownell said. Its stated mission is to clarify application of the laws and to arrive at "an agreeable statement of national anti-trust policy that will confirm the principles of private competitive enterprise, and insofar as possible, combine certainty with flexibility."

Addresses Judicial Circuit Brownell's statements, his first comprehensive discussion of anti-trust policies since taking office last January, were in an address prepared for the annual conference of the Fourth Judicial Circuit.

The attorney general brought to the conference a message from President Eisenhower which said: "I believe that the attorney general's National Committee to Study the Anti-Trust Laws will provide an important instrument to prepare the way for modernizing and strengthening our laws to preserve American free enterprise against monopoly and unfair competition. It is requested that all departments and agencies of the federal government give full cooperation to insure its success."

Brownell did not immediately disclose who will serve on the study group. He said he plans to have preliminary organization ready for announcement when the anti-trust section of the American Bar Association meets in Boston during August.

The committee, he said, will function in two sections, one devoting its time to a study of the basic anti-trust laws and the other surveying the best procedure that can be taken under them.

ground during the night, but regrouped and counterattacked, driving the Reds down the hills, the Army said.

### Lose Three Posts

In the East, 3,000 attacking Chinese knocked South Koreans off three frontline positions near the Pukhan-Kumsong River junction. Counterattacking South Koreans twice drove to the crest of one hill, but both times were beaten back. Late in the day furious fighting—in some sectors hand-to-hand—was reported on all three hills, the 8th Army said.

The Air Force said 141 fighter-bombers hit the attacking Reds up to early afternoon, and hundreds more were waiting for the sky to clear.

Returning pilots reported heavy Red antiaircraft fire in the Little Nori area.

Twelve B29 Superforts from Japan bombed two Communist supply and troop centers on Korea's East Coast near Hamhung early Friday.

in the names, although I don't see how the articles could have been written any better. But apparently people did not understand that Penn State has always operated the laboratory, and the corporation was set up to raise the funds to buy the new buildings and orchards. Now the college is paying off the corporation and it is going out of existence. The only difference is that before Penn State paid rent for its laboratory at Arendtsville, now the college owns it outright."

Dr. Lewis reported that cherry leaf spot, after a low two years ago, is rapidly increasing. Rains during the period May 3 to 7 prevented many growers from putting on sprays and as a result "we have an unusual large amount of leaf spot. There are many trees that are going to be from 25 per cent to 100 per cent defoliated in the next 30 days."

### Winter In Old Leaves

"This will have a definite effect on the crop next year as well as affecting this year's crop. Cherry leaf spot spores overwinter in the old leaves and go back on the trees in the spring. Anything we can do to cut down the number of old leaves helps reduce cherry leaf spot."

Most of Lewis' talk had to do with the virus diseases in cherry trees on which he has been engaged in research for the past several years. He is author of the article on virus diseases in trees scheduled to appear in the 1953 U. S. Department of Agriculture Year Book.

"We are learning that there is nothing we can do to stop the spread of virus diseases in orchards once it starts," he said. "Possibly a generation from now we will be able to inject something into the trees to kill the virus, but that is not possible now, although there is some promising research in other plants."

"The only way to combat it is to secure virus-free buds and stock. Another way is to so manage trees that they come into production at four years of age instead of seven."

We have some trees at the experimental orchard that have produced three crops that will more than pay for the orchard and are now only seven years old.

### Crops Cut Down

"Ring-worm virus seems to be at its worst when the trees are about 10 to 15 years old and so by getting crops early, we get ahead of the virus. The ring spot causes about 40 per cent reduction in crops the first year and then the production goes back to about 90 per cent. Thus ring spot would not worry us much if it were not followed by virus yellows, which come about two years later and reduce the production of the trees by about 50 per cent. And the tree never gets above that thereafter. The fruit grown is unaffected, if anything larger than normal, but the tree never bears more than half a crop."

Lewis told the group: "Don't be too discouraged. If cherry trees had no problems, everyone would have a couple in their back yard and commercial cherry growers would be out of business."

County Agent M. T. Hartman, pointing out that "the orchards are very spotty, and as a result guessing is even more hazardous than usual," said he believed Adams County orchards will produce "as many and probably more cherries than last year."

### Economically Important

Hartman added: "The cherry crop means a lot to Adams County, not only to the growers and processors, but to the people who pick the crop. Many counties take their vacation during cherry-picking time so that they and their families can go into the orchards and earn extra money. Cherry picking is one job that everyone can do from cradle

## India Wants U. N. To Confer On Truce

UNITED NATIONS, N. Y. (AP)—Over strong U. S. opposition, India tried today to line up support from a majority of the 60 United Nations for an immediate U. N. General Assembly session on the Korean truce huddle.

Indian Prime Minister Nehru told newsmen in Cairo it was time for the U. N. to "make it perfectly clear that the U. N. Command is master of the situation and nobody else—not President Syngman Rhee."

Many diplomats here agreed, however, that the U. S. opposition

to grave, and the whole family can work in the orchard."

The nominating committee for the meeting comprised John Peters, who is a director on the National Red Cross Institute from this area; Stuart A. Lucabaugh and Oliver Heacock.

## RIOTS WIDELY FELT SAYS IKE

BONN, Germany (AP)—President Eisenhower said today the recent anti-Communist revolts in East Germany "will be felt throughout the Soviet satellite empire."

He expressed the hope that this might persuade the Russians to permit free elections in their zone to reunify divided Germany.

The American President expressed these opinions in a note to West German Chancellor Konrad Adenauer assuring him of American support for Adenauer's proposals to reunify Germany "in peace and freedom" through free nationwide elections.

Dr. Adenauer had appealed for such support in similar telegrams sent last Sunday to President Eisenhower, Prime Minister Churchill and France's acting Premier, Rene Mayer.

Churchill sent Adenauer a reassuring reply yesterday. Today Mayer also sent from Paris assurances that he would "spare no effort" to help re-establish a unified and democratic Germany.

would prevent any Assembly meeting until the Americans are ready for it.

Some observers speculated that Nehru's call for the session, made in a cable yesterday to Assembly President Lester B. Pearson of Canada, was the Premier's way of pressuring Rhee to agree to a Korean armistice.

### TABLE MANNERS

My mother taught me manners. In my very early life I learned when I was eating I must never lick the knife. The knife was meant for cutting. It was lamb or beef or pork. The proper instrument for eating is the fork.

Fault by fault, with patient teaching, she corrected years ago.

I mustn't sop the gravy, and the tea I mustn't blow. I remember how she scolded every time that she looked up and caught me drinking coffee with the spoon still in the cup.

But there's one thing mother taught me—an old custom I'd have banned—  
"Twice when friends come to the table every gentleman must stand."

I've obeyed her, and I've stood there while some tale was being told.

With the knowledge while I waited that the soup was getting cold.

I go visiting when dining and some friends of mine I see But I waive the old time teaching and I say: "Still seated be. I have merely come to greet you and to shake you by the hand, But you needn't mind your mothers who instructed you to stand."

## Today's Talk

By GEORGE MATTHEW ADAMS

### ARE YOU AN ADVERTISER?

Advertising has become a great art. Millions are spent every day to arouse people to buy what is offered in print, over the radio, on TV, in magazines, on car cards, or upon billboards. So extensive has advertising become that people unconsciously buy things they had no intention of buying just because of the enthusiasm displayed in some form of advertising.

Trade-marks become symbols of honesty, integrity, and as guarantees. Arguments, catchlines, and slogans are used with the object of influencing a reader or listener to buy. And people do buy! Not always knowing exactly why they do! Honestly, however, in advertising goes farthest and has the greatest permanence. A good advertisement must carry confidence and character within it. The quality of the product must be outstanding.

Every human being, in some way the same manner as a written or spoken advertisement, is also an advertisement. People look for the character and quality of another as their guarantee that that person is worth while as a friend or associate. Wise employers are forever seeking out men and women in competitive concerns that they would like to employ. They have advertised themselves so prominently that they need no further endorsement.

I have been interested in the recent transfer of the great Pittsburgh home-run king and noted "slugger," Ralph Kiner, who has been taken over by the Chicago Cubs baseball team. It will be interesting to see what effect that new acquisition will have upon the morale and spirit of that tail-end club. His fine character and ability are known to millions, and as a gate attraction no one can do more than speculate upon what will happen now. Already as a man and player he is a top advertisement in himself.

Are you an advertiser? Have you honesty and quality interwoven into all that you do? Are people attracted to you? Do you give them reason to be? Are you daily "selling" yourself—making people want you around, one to whom they may give their love and confidence? To "Bob" Updegraff, himself a noted advertising expert, I owe the subject of this Talk.

Tomorrow Mr. Adams will talk on the subject: "Mother Earth." Protected, 1953, George Matthew Adams Service

## WILEY URGES PRESIDENT TO DEAL BLUNTLY

NEW YORK, June 26 (AP)—Sen. Wiley (R-Wis) today urged President Eisenhower to deal bluntly with Republican "saboteurs" of his foreign policies.

The chairman of the Senate Foreign Relations Committee, in a speech prepared for the United States Trade Mark Association, said he wants the GOP administration to encourage teamwork on foreign policy "rather than to idly permit and fail to discourage irresponsibility."

Wiley said he wasn't suggesting that members of Congress follow the administration "slavishly" but was calling for "a greater sense of teamwork."

**Praises Ike's Efforts**

"It will do no good if the Republican party is simply listed in its policy statements and resolutions on behalf of the administration's foreign policy if a sizeable group in that party is effectively trying to sabotage those policies," he declared.

Wiley mentioned no names in this connection, but he said Eisenhower "knows saboteurs and malcontents and goldbricks when he sees them."

He said he thinks Eisenhower is making "a superb, superhuman effort to try to bring differing viewpoints together and to create a greater sense of teamwork."

"He does not want existing frictions to grow still worse and existing divisions to expand into wide open gulfs," Wiley said. "He is seeking sound compromises whenever necessary and without jeopardizing principles."

But he said the administration ought not to ignore splits over foreign policy and ought not to "regard their provokers complacently."

**"Quit Cringing"**

Wiley cited Sen. Taft (R-Ohio) as a man he said "will never be gagged" but who has made many sacrifices for team play.

The Wisconsin senator complained that some of those who criticized his opposition to the Bricker amendment to restrict treaty-making powers had been overly violent.

He said nobody is going to be able to rush the Bricker proposal through the Senate. It has been approved by the Senate Judiciary Committee over the objections of the President and Secretary of State Dulles. Sen. Knowland (R-Calif.), acting GOP leader, has said it will be taken up this session.

Turning to international affairs, Wiley called on U. S. allies to "quit cringing and quit talking appeasements." He urged that they join in a series of demands on Russia.

### SENTENCED TO DIE

LONDON (AP)—John R. Christie, self-confessed stranger of seven women, was convicted of murder today and was sentenced to die.

An Old Bailey jury of nine men and three women found the 33-year-old wartime policeman sane, thus rejecting a defense plea that he was "mad as a March hare."

**burg Man:** Announcement was made Friday of the marriage last Monday evening at 5 o'clock, of Miss Frances Gertrude Kerrigan, daughter of Mr. and Mrs. James J. Kerrigan, 68 West Middle street, to Charles Marion Ashbaugh, son of Charles B. Ashbaugh, Emmitsburg. The ceremony was performed by the Rev. Albert E. Thomas, pastor of the Presbyterian church, Elkton, Maryland.

Mrs. Ashbaugh is employed by the G. C. Murphy company. Mr. Ashbaugh is employed by John E. McDonnell, paper hanger.

**Farm Manager Takes Bride:** Miss Viola Mae Allison, daughter of Mr. and Mrs. Samuel Allison, Gettysburg R. D., and John A. Raffensperger, son of H. S. Raffensperger, Arendtsville, were united in marriage Friday morning at 9:30 o'clock, in the Trinity Lutheran Church parsonage, Arendtsville.

The Rev. George H. Berkheimer officiated.

The bride has been employed by the O'Sullivan Rubber company, Gettysburg.

Mr. Raffensperger is the manager and superintendent of the Edwin A. Rice farms.

**Hold Reception:** About 100 members of the Presbyterian Church and their friends attended a reception for the Rev. and Mrs. S. G. Morrow Thursday evening. In the receiving line were Rev. and Mrs. Morrow, Mr. and Mrs. S. G. Bigham, Mr. and Mrs. James P. Cairns and Mr. and Mrs. John K. Lott.

## Says Women Are Not Weaker Sex

STOCKHOLM (AP)—Husbands, lay off those dishes when you get home from a hard day's work! Let the little woman handle the household chores. She's stronger than you are.

The male sex, says Dr. Einer Perman, head surgeon in a large hospital here, is much weaker than the female. He bases this announcement on "professional experience at the operating table" which showed women bear up much better under major surgery than men.

Men, says the doctor (who is married), have to relax when they come home from work to keep their strength and ability to hold their families together. Frequent naps are advised.

That's the theory. But what will the women say about it?

## HOLD SECRET UNION TALKS

NEW YORK (AP)—The New York Times said today the heads of the United Mine Workers and the CIO Steelworkers talked secretly in Washington yesterday, and scheduled further talks in the future.

The newspaper said the subject discussed by John L. Lewis, chief of the Independent Mine Workers, and David J. McDonald, Steelworkers president, was not disclosed.

It said, however, that it was reported there had been "no discussion of merger at the moment."

But, the report said, the meeting set off fresh speculation along these lines:

1. That McDonald might lead his million-member union out of the four-million member CIO.

2. That the CIO is on the verge of dissolution.

3. That there was truth in recent reports of merger discussions in.

## ACTION ON NEW ADOPTION BILL IS POSTPONED

HARRISBURG (AP)—Final action on a bill setting up new child adoption procedures in Pennsylvania has been postponed until the Senate reconvenes on July 6.

The measure, previously a subject of much controversy, was up for a final vote yesterday. The vote was set back, however, due to a special tax discussion meeting involving Senate leaders.

The measure, sponsored by Sens.

Edward J. Kessler (R-Lancaster) and Eustace H. Bane (D-Fayette), calls for approval of all child adoption agencies by the State Welfare Department.

Standards for the agencies would be set by the department in conjunction with a 12-member advisory committee.

The Senate also postponed until the July 6 reconvening date a final vote on legislation to exempt machinery from assessments on real estate for tax purposes in counties from the third to the eighth class.

**Not Ready For Vote**

"Democratic senators are not yet ready to vote on this legislation and neither are we (the Republicans)," Sen. James S. Berger, GOP caucus chairman, told a newsmen.

The machinery exemption bills have been strongly opposed by Sens. William J. Lane (D-Washington) and John H. Dent, Democratic floor leader.

Lane said the legislation is opposed also by the Pennsylvania County Commissioners Association, Pennsylvania School Direc-

ing several smaller CIO unions and their AFL counterparts.

4. That CIO-AFL unity, which has been the subject of top-level union conferences, may be hastened by the possibility of a Lewis-McDonald merger.

The Times said Lewis, who was the CIO's first head, and McDonald talked in a "very friendly" fashion in Lewis' office.

## Braves Lose 12-Inning Tilt With Pirates, Face Brooklyn In "Crucial" 3-Game Series

By BEN PHLEGAR  
AP Sports Writer

The Cleveland Indians get another change this weekend to make the American League pennant race look like a pennant race. In the National League, where it's been close all the way, the lead may well change hands.

The desperate Indians, trailing by nine games, renew their one-sided rivalry with the league leading, but suddenly slumping, New York Yankees in a three part series opening tonight in New York.

In Milwaukee, the deflated Braves, who like the Yanks have dropped four straight, collide with the second place Brooklyn Dodgers. The Bums trail by only two games.

### Could Lose Lead

The world champions have won seven in a row from the Ohio Tribe this season and they look upon the visit of the Indians as a pleasant change from the company of the Chicago White Sox. The Sox blew town last night after sweeping a three game set with the Yanks.

But the prospects of meeting the Dodgers in three games won't bring many smiles in the Braves' camp. Brooklyn won two out of two on its last Milwaukee visit and two Dodger victories this time would cut the Braves' lead to exactly zero.

Experts such as Leo Durocher figure the Braves have been playing over their heads and have real cause to worry. But as yet nobody is proposing seriously that the Yankees, who recently came within a single game of equalling the all-time American League winning streak, are ready to fall apart, especially against their Cleveland cousins.

### A's Beat Tigers

The White Sox, who had beaten the Yankees in the first inning on Wednesday, waited until the ninth inning yesterday to pull out a 4-2 triumph. Cleveland blasted Boston, 15-4. The St. Louis Browns won their fourth straight, 3-1, over Washington, and Philadelphia finally caught up with Detroit after two setbacks, 5-2.

Milwaukee went 12 innings before bowing, 6-4, to Pittsburgh. Brooklyn swamped Cincinnati, 12-3. Philadelphia squeezed into third place by beating Chicago, 13-2, while the St. Louis Cardinals slipped to fourth in losing to New York, 9-4.

Yogi Berra and Nellie Fox traded two run homers in the White Sox-Yankee game and then Fox opened the ninth with a single, moved to second on a sacrifice and scored as Minnie Minoso ran his hitting streak to 17 games with a single.

### Five For Senators

Larry Doby and Al Rosen, who will have to produce if Cleveland expects to do anything against the Yankees, drove in five runs apiece in the rout of the Red Sox.

The Browns handed Washington its fifth straight loss by scoring once in the second inning on a single by Don Lenhardt and a double by Lenhardt and a long fly by pinch hitter Vic Wertz. Philadelphia scored all five of its runs in the second inning against Detroit. Pitcher Harry Byrd, who won his eighth game, drove in one of the runs.

Milwaukee coasted into the ninth inning with a 4-1 lead over Pittsburgh but Johnny Lindell slammed a pinch hit home run with two men on base to force the game into extra innings.

Johnny O'Brien opened the 12th with a walk, moved to third on a single by Danny O'Connell and romped home when Frank Thomas singled, his first hit in 28 times up.

### Five Home Runs

Brooklyn bombarded the Redlegs with five home runs which made it easy for Preacher Roe to register his fourth victory. Wayne Belardi started the barrage with one on in the third. Carl Furillo also connected in the third. Duke Snider homered with one on in the seventh. Gil Hodges with the bases empty in the eighth and Pee Wee Reese with nobody on in the ninth.

A single home run caused most of the damage to the Cardinal cause in St. Louis. Pinch hitter Bobby Hofman parked one into the left field bleachers with the bases filled to highlight a seven-run seventh inning for the Giants.

The Phillies continued their complete domination over the 1953 edition of the Cubs with a 19-hit attack on four Chicago pitchers. The Phils have won 11 in a row from the cellar-dwelling Chicagoans this season.

## TURNESAS ARE ROYAL FAMILY OF GOLFDOM

By GUIDO CRIBARI

WHITE PLAINS, N. Y. (AP)—Baseball has its DiMaggios. Boxing has its Zivics. But it is doubtful if any family can match the contribution that the Turnesa clan of Elmsford, N. Y., has made to golf.

Over a quarter century the Turnesa brothers (there are six of them now) have collected more golf titles than can be measured.

Two of the boys possess a high place in the sport this year. Jim Turnesa, 39, is the present PGA champion, while younger brother, Willie, sits at the top of the amateur field as captain of the United States Walker Cup team.

Jimmy's PGA conquest at Louisville last year marked the realization of a 25-year dream of the Turnesas. Five of the boys had sought this title. Three times the Turnesa name has been denied the role of crown-wearer.

In 1927, the great Walter Hagen beat Joe Turnesa, one-up, in the PGA final at Cedar Crest, Dallas, Tex. Then in 1942, Sam Snead defeated Corp. Jim Turnesa, 2 and 1, in the final at Seaview, Absecon, N. J. In 1948, Ben Hogan stopped Mike Turnesa, 7 and 6, in the PGA final at Norwood Hills, St. Louis.

Thus, it has taken three greats—Hagen, Snead and Hogan—to keep a Turnesa from the PGA crown. Last summer, Jim beat Chick Harbert, one-up, in the PGA final. His other victims in the tourney were Bob Toski, former champ Chandler Harper, Roberto DeVicenzo of Argentina, Clarence Dozer and Ted Kroil.

It took another great—Bob Jones—to keep Joe Turnesa from a big win in 1926. Jones beat Joe by a stroke in the U. S. Open at Columbus. Jones finished with 293.

During Joe's long competitive span he has won over 50 tournaments, including the British PGA, Texas, Pennsylvania and Massachusetts Opens.

Jimmy, winner of the North-South Open and a clinch to make the Ryder Cup team this year, has been in the PGA quarter-finals four times and once reached the semi-finals.

### Perennial "Bridesmaid"

Brother Mike, 45, has been golf's perennial bridesmaid. Including his PGA final loss to Hogan, Mike has finished second in the Canadian Open, Miami and Western Opens and was second in the 1942 Hall of Fame. The family at one time or another has held every Metropolitan New York title.

Besides Jim, Willie, Joe and Mike, there are Phil and Doug, Frank, who was a greenskeeper and course designer, passed on three years ago. Phil is the pro at Elmwood, N. Y., while Doug is pro at Briar Hall, Briarcliff Manor, N. Y., a club that Jim represents on tour. Mike is pro at Knollwood in Elmsford. Joe is pro at Grossinger's, Fernside, N. Y.

Willie, who played golf at Holy Cross College and who decided to remain an amateur, won the U. S. Amateur in 1938 and again in 1948 and the British Amateur in 1947. He is rated by many as one of the four great amateurs ever developed in this country.

The family's amateur hope now is Joe Turnesa's son, Joe Jr., a six-foot swinger playing for the Georgetown University team.

Truly "Golf's Royal Family" is the Turnesa clan. The boys give credit to their loveable dad who retired recently after some 50 years as greenskeeper at nearby Fairview Country Club in Elmsford. It was a fortunate day for the Turnesas when Papa came over from Italy as a boy and wisely settled in Westchester County—often regarded as the golfing county in the country.

### LAST NIGHT'S FIGHTS

NEWARK, N. J.—Danny Rubino, 153, Hoboken, outpointed Pat Best, 152, Westfield, N. J., 8.

PHILADELPHIA—Jay Anderson, 149, Philadelphia, outpointed Joe Brewer, 148, Philadelphia, 10.

## Cassaday Vs. Hiskey In Quarterfinals

COLORADO SPRINGS, Colo. (AP)—Charles Cassaday of Southern California and Marion Hiskey of North Texas State led off today's 18-hole quarterfinal round of the 56th NCAA Golf Tournament.

Hiskey, a semifinalist last year, moved into the role of favorite with a 5 and 4 triumph in the second round over Tom Matey of Notre Dame. The luster of the Idaho State amateur champion was tarnished a bit in the third round, however, before he rallied to win, 2 and 1, over Mel Woelfling of Ohio State.

Cassaday squeezed by Larry Harper of Ohio State in a 20-hole second round match and downed Don Nichols of Oklahoma A&M, 2 and 1, in the third round.

### Senate Approves Game Commissioner

HARRISBURG (AP)—Appointment of Andrew C. Long, Shamokin, as a member of the State Game Commission has been approved by the Senate.

Gov. John S. Pine named Long to serve until January, 1961, succeeding Harold Moltz, of Williamsport, who resigned.

The Senate also confirmed yesterday the nomination of William Y. Neill, Hanover R. D. 1, as justice of the peace for Penn Township, York County, filling a vacancy.

### 16 Players Hold All-Star Positions

CHICAGO (AP)—Leaders at 16 positions retained their places in the All-Star Baseball Poll today as the balloting headed into the stretch drive.

The contest, which started on June 12 to select the National and American League lineups for the 20th annual game in Cincinnati July 14, will close at midnight on July 3. Voting in the poll has passed the one million mark.

Four of the current leaders will be appearing in the All-Star game for the first time if they are chosen. They are the Milwaukee Braves' Ed Mathews, Cincinnati's Ted Kluszewski, New York's Mickey Mantle and Gus Zernial, former White Sox outfielder now with the Philadelphia Athletics.

## Mat Program July 1 At Lincoln Park

The initial wrestling program of the summer season at Lincoln Park, near Fayetteville, will be staged Wednesday evening, July 1, at 8:30 o'clock, according to Lew Steinbaugh, promoter.

"Nature Boy" Buddy Rogers will meet the Zebra Kid, Lenny Montana, in the one fall windup feature. The semi-windup will pit George Cassius against Ace Freeman.

A tag-match, two out of three falls, will open the card with Ray Thunder and Lenny Lombardi opposing Jack Dillon and Chuck Morgan.

## PLAY 5-HOUR TENNIS MATCH

WIMBLEDON, England (AP)—The tempo of the all-England Tennis Tournament slackened today—and a good thing it was because players and officials still were shaking their heads in amazement at the marathon match between Jaroslav Drobný and Budge Patty.

Most of today's schedule will be given over to doubles play. There are only two men's singles matches and one women's on the board. Ken Rosewall meets his fellow Australian, Jack Arkinstant, and Arkinstant meets his fellow Dane, Torsten Johansson of Sweden.

Drobný moved into the fourth round with a five-hour 8-6, 16-16, 3-6, 8-6, 12-10 victory over Patty, an unseeded Los Angeles player who can make trouble for the best of them when he is taking his game seriously.

But there's no rest for the weary and Drobný and Patty teamed up in a doubles match today.

The five-setter had veteran Wimbledon officials scrambling for the record books and none could recall a longer match. It also served as a hypo for the tournament which was pretty dull for three days.

# **BILL PERMITS CANDIDATES TO SEEK MORE THAN ONE NOMINATION**

HARRISBURG (P)—Legislation to permit candidates for political office to seek the nomination of more than one party is in the Senate.

At present, only candidates for a judgeship are permitted to file nomination petitions of more than one party.

Sen. John Carl Miller (R-Beaver), sponsor of the measure told a newsman he believed it would help political matters in cases where the candidate of one party is looked on with favor by the opposing party.

"Election then would be assured in the primary and the storm and stress and expense of another fight in the general election eliminated," he explained.

Under present law, the only manner in which a person can run on the ticket of more than one party—with the exception of judges—is by winning the nomination of the second party by a write-in vote.

Miller pointed to the example of California where Gov. Earl Warren has been the candidate of both parties.

"I believe the success of that system there could be duplicated in Pennsylvania, at least in numerous local elections," he added.

Other new Senate bills would: Require complete mechanical inspections of passenger buses every six months—Sen. Joseph J. Yosko (D-Northampton).

**Police Suspensions**  
Suspend local police authorities for at least 30 days if they cannot clear themselves of responsibility in cases where state police step into their districts and conduct vice or gambling raids—Yosko.

Require school bus drivers to assign one pupil to escort others alighting any particular crossing across the street with the aid of a red flag to alert motorists—Sen. Edward B. Watson (R-Bucks).

New bills introduced in the House would:

Permit the State Commerce Department to hold in reserve or bring back into active production mineral resource lands taken over by the state for tax delinquency or bought by the state—Rep. Henry C. Spencer (R-Lackawanna).

Lower the retirement age from 60 to 55 for employees of second class cities under special pension plans and increase the maximum payment from \$175 to \$187.50 a month—Rep. John J. Vaughan (R-Allegheny).

Permit former public school employees who have become state employees to re-enter the public school employees retirement association—Rep. Presting A. Frost (R-Centre).

## **Nationalists Want Okinawa Returned**

TAIPEH, Formosa (P)—Chiang Kai-shek's Chinese Nationalists apparently hope that Okinawa and the rest of the Ryukyus, strategic Pacific islands between Formosa and Japan, one day will come back to Chinese rule.

Evidence of this was provided by a letter sent to Foreign Minister George Yeh by the control Yuan, Free China's highest watchdog body. The letter inspired by press reports that Japan intended to discuss with the United States the "problem of the Ryukyus," asked Yeh to pay close attention to the situation.

The Nationalists all along have claimed the Ryukyus were part of the Chinese empire before they were taken by Japan.

## **BEAR REPORTS STIR RESIDENTS**

BALLY, Pa. (P)—Is there, or is there not a bear in Bally Valley? Citizens of Bally—and the valley—and even as far as Pottstown, 10 miles away—have more than a cursory interest in the matter if the bear which James Stauffer says he saw near a spring off Route 100 is still around.

Latest reports today are that the bear—or something big and brown with a rolling gait—was seen in Lehigh County not far from Allentown. That would put the animal nearly 30 miles from Bally.

Nonetheless, Deputy Game Protector Richard E. Blair, is keeping a sharp lookout for the bear and would like anyone who sees—or thinks he sees—the bruin to telephone on once.

He said it would be a most unusual thing for a bear to wander into the area since, for the most part, Pennsylvania bears in the Eastern part of the state favor Pike County.

Anyway, if you see the bear in Bally Valley, or any other valley, call a game warden. But don't shoot—bears are out of season.

## **Five Groups Will March On Capital**

PHILADELPHIA (P)—Five large statewide organizations will march on Harrisburg Tuesday in support of three child welfare bills now before the General Assembly.

Organizations to be represented in the line of march are the Governor's Committee on Children and Youth, the Pennsylvania Citizens Association for Health and Welfare, the Pennsylvania Federation of Women's Clubs, the Pennsylvania Council of Churches, and the American Legion Child Welfare Committee.

Charles H. Frazier, president of the Citizens Association and executive manager of the United Gas Improvement Co., Philadelphia, announced the mass migration of some 500 delegates. Frazier said the rally would be held at the Penn Harris Hotel in the State Capital.

## **Penicillin Bill Is Sent To Senate**

HARRISBURG (P)—A bill authorizing manufacturers to put penicillin in feed for animal consumption only will be ready for Senate action when that body reconvenes here July 6.

The measure, passed by unanimous vote in the House yesterday, is similar to the only bill vetoed by Gov. John S. Fine this session. "This new bill spells out that only manufacturers may put the penicillin in the feed," said Rep. T. Luke Toomey (R-Perry), sponsor of the measure.

He said that would eliminate the governor's objection. The House also passed a bill that would protect the approaches to airports by low-flying airplanes. The measure prohibits the erection and maintenance of obstructions that would hinder low flying craft.

Although it sometimes snows in midsummer around Hudson Bay, summer temperatures in that area sometimes hit 90.

## **DAGUE DEFENDS RHEE STAND ON PRISONER ISSUE**

WASHINGTON (P)—A Pennsylvania congressman has gone on record against what he calls the "generally accepted opinion that President Syngman Rhee's liberation of anti-Red Korean prisoners is wholly bad."

Rep. Dague, a Republican, said in a statement in the congressional record yesterday:

**British Checkmate**  
"Indeed, what the South Korean president did is completely in accord with what most Americans would have done under similar circumstances; and I, for one, applaud it as an act to checkmate our allies, particularly the British, who would count turning 25,000 prisoners over to the Reds as the mere price to be paid for certain economic advantages on which they have set their hearts."

**Pro-Red Judges**  
Dague said, too, that Rhee's action is "understandable when we realize that under British pressure we succumbed to the formula that a majority—meaning pro-Communist Poland, Czechoslovakia and India—of the so-called neutral team would decide the fate of the reluctant anti-Communist prisoners."

Some of the paint which was applied in 1300 is still on England's coronation chair.

## **Two POWs Killed In Attempted Escape**

PUSAN, Korea (P)—American guards killed two anti-Communist North Korean prisoners and wounded another early today when prisoners in Camp No. 2 near here attempted a mass breakout, the U. N. Prisoner of War Command announced.

The Command said prisoners in one enclosure made two attempts to break out shortly after midnight. Both were broken up and none escaped.

There were no casualties among U. S. guards.

The Command also announced that five POWs escaped from Camp No. 7 near Masan shortly before midnight. No details were released.

## **BANNED BOOKS ARE REMOVED**

WASHINGTON (P)—State Department disclosure that all copies of some 300 books have been banned from U. S. information libraries overseas brought new demands today for more details.

Dr. Robert L. Johnson, head of the information program, and two aides told a news conference yesterday that U. S. prestige abroad has been hurt to some extent by cries of "book burning."

They said the department, having banned any further literal burning of the books, is now sweating out a new directive to end admitted confusion over purging of real or alleged Communist books.

Authorities here do not know how many titles, aside from the 300, have been removed by individual librarians abroad, battered by series of 10 directives during the past five months.

Less than a dozen of the books

removed from the shelves have been burned, and instructions have gone out that no book is to be burned or destroyed. The books instead are being stored.

These and other bits of information came out at the news conference held, after weeks of newsmen's demands, by Johnson, Richard Humphrey, director of the library operation, and Ben Crosby, public relations officer of the International Information Administration.

WILKES-BARRE, Pa. (P)—William Richards saw something moving behind a bush while out hunting groundhogs at nearby White Haven yesterday.

He fired his .22 caliber rifle at the object.

The bullet struck and killed his brother, Richard, 15, who was cleaning a groundhog he had shot. Deputy Coroner A. M. Kocher of White Haven listed the death as accidental.

## IKE ENDORSES COMPROMISE ON FOREIGN AID

WASHINGTON (AP)—President Eisenhower has endorsed a proposal by Sen. Taft, (R-Ohio) to compromise a House move aimed at withholding a billion dollars in foreign aid until Western Europe agrees on a unified army.

Taft has proposed that the President be given discretion to withhold these funds or spend them. Eisenhower was reported to have spoken up at a White House meeting yesterday in favor of this method.

The House voted to tie down the aid funds until all six Western European nations affected ratify the European Defense Community (EDC) treaties, which would create an international army. Only West Germany has voted ratification so far, with France among the five nations yet to approve.

Observing that he couldn't go along with the House action, Sen. Lyndon B. Johnson of Texas, the Democratic leader, said in an interview he intends to support the

## YOUNG NEGRO IS GIVEN LIFE

BUTLER, Pa. (AP)—Trembling and sobbing, Russell Budd, son of a Pittsburgh policeman, heard a jury pronounce him guilty of first degree murder and condemn him to life in prison for the installment plan slaying of Mrs. Alice Storch.

The 28-year-old Pittsburgh Negro buried his face in his hands and sobbed in disbelief after the jury of six men and six women issued its verdict in a drama-charged Butler County Court room last night. His body twitching, Budd mumbled: "How? How? I didn't do it."

The state charged Budd and another Pittsburgh Negro, Walter Henderson, 26, were hired by Ernest Storch, 50, to kill Storch's nagging wife for \$10,000 and strangled the woman in the bedroom of her home after Storch made a down payment of \$3,500. Henderson pleaded guilty.

Fearful that Budd might make a desperate bid for freedom, officials summoned additional guards to ring the court room as the jury filed in. A cordon of state police was thrown around the building. Nothing happened.

The conviction came after four hours of deliberation.

## BILL FOR NEW DAMS KILLED

TRENTON, N. J. (AP)—A bill that would clear legal obstacles to the construction dams across the Delaware River by the State of Pennsylvania died in the New Jersey Assembly last night.

The bill, which passed the Senate May 25, failed to come up for a vote in the Assembly as both houses of the New Jersey Legislature closed down their regular 1953 session.

Sponsored by Sen. Alfred B. Littell (R-Sussex), the bill was to enable Pennsylvania to build the dams with the legal assistance of New Jersey. Under the bill, New Jersey could have condemned property on its side of the Delaware so that Pennsylvania could go ahead with construction.

Littell said the bill was drawn in line with an agreement with Pennsylvania authorities.

The bill specifies that "real property in New Jersey may be acquired by private contract or may be taken by the exercise of the power of eminent domain" by this state.

## HOUSE PONDS NEW PENAL BILL

HARRISBURG (AP)—The complete Senate program for reorganization of Pennsylvania's penal system was before the House today.

The upper chamber passed the last of 10 bills yesterday transferring the administration of seven penal and correctional institutions from the Welfare Department to the Justice Department.

Only the Pennsylvania Training School at Morgantown will remain under the Welfare Department. That's because interested groups hold that training rather than punishment are paramount at that institution.

Opposed legislation is based on recommendations of Gov. John S. Fine's special Prison Investigating Committee which probed all state penal institutions after last January's prisoner riots.

Included in the transfer are the Eastern and Western State Penitentiaries and their Graterford and Rockview Branches, which would be given their own wardens; the Muncy Industrial Home for Women; the Pennsylvania Industrial School at White Hill, and the Pennsylvania Institution for Defective Delinquents at Huntingdon.

JUDGE BREAKS HIP  
PITTSBURGH (AP)—James B. Drew, 76-year-old retired chief justice of Pennsylvania, is in Mercy Hospital with a broken hip suffered in a fall in his home. His condition is listed as fair.

## KILLER GIVEN NEW RESPITE

PITTSBURGH (AP)—Cleveland Thompson, convicted Pittsburgh killer fighting to escape the electric chair, has won at least four more days of life.

A hearing in U. S. District Court to determine whether Thompson should be given a new trial ended yesterday and Judge Rabe F. Marsh ordered attorneys to file legal briefs and present further arguments Monday.

Thompson, who fatally shot Wallace Russell, Pittsburgh bartender, during an attempted holdup in 1949 was slated to die in the electric chair last Monday.

He claimed evidence was suppressed at his trial which would have shown he was irrational at the time of the slaying. Judge Marsh granted him a reprieve—his ninth—and ordered a hearing to take additional testimony.

## New President Is Named By Methodists

Others elected were the Rev. Dr.

WASHINGTON (AP) — Sen. Willis Smith (D-NC), a strapping six-footer who won his Senate seat in 1950 in one of North Carolina's most heated political battles, died today at nearby Bethesda, Md. Hospital. He was 65.

Death was attributed to coronary thrombosis. He had suffered a heart attack early Tuesday and his family was at his bedside when he died, his administrative assistant, Jesse Helms, said.

## Simply Designed Necklines Call For Color At Throat

The new collarless and simply designed necklines of Spring call for pretty neckwear to add a feminine touch. And the box jackets, scooped necklines and open fronts can take countless variations with the new weskits, fill-ins and gilets.

Stoles are the biggest news this Spring, newly dramatic with coats, suits and dresses. Gossamer-sheer or functionally wrappable and cozy, they drift over evening gowns in airy chiffon, soften a dyed-to-match linen dress, or take the place of the little jacket for casual wear.

Scarves in brilliant shades or prints, "sissy collars" and bright lengths of ribbon are important as the little touches that "make" a Spring costume, including narrow little ties, huge puffs of taffeta,

pleated pull-through scarves and flower-edged ribbons.

White and pastel accents, becomingly placed at the neckline, spark the traditional navy ensembles of Spring, as well as the new lighter shades. Yellow pique is a strong color note for gilets and collars.

Dyed-to-match flowers are another "custom" touch seen often with Spring costumes, and do much to soften the cardigan necklines of the new suits. Some make a festive fill-in lei for the new open neckline.

Weskits are the perfect match for open-front suits, in a beautiful range of decorative fabrics, including cotton, taffeta, and shimmering brocade in solids, stripes or floral patterns.

## COURT MARTIAL IS DELAYED BY DISTRICT COURT

**By KARL R. BAUMAN**  
WASHINGTON (AP) — The U. S. Court of Appeals was the next stop today for a ruling that the Air Force acted illegally in seizing ex-Sgt. Robert W. Toth and flying him to South Korea to face a court martial on charges of murder.

It may be many months before the 21-year old Pittsburgh steel worker knows whether he must stand trial or is to be freed.

For a few hours late yesterday, it appeared he would be flown home to await the next legal moves in his case.

But U. S. District Judge Alexander Holtzoff agreed to hold up issuance of a writ of habeas corpus after Pentagon officials sent word they would appeal from his ruling.

**Rules Against Transfer**  
The judge, after listening to arguments, held the 1951 uniform code for military justice contains no provision under which a civilian can be arrested and removed to a distant point for trial by court martial.

Holtzoff said he did not question the good faith of Air Force author-

"entirely without authority" of law.

Anthony R. McGrath of Pittsburgh, one of Toth's attorneys, told Judge Holtzoff that Toth was "abducted, kidnapped and shanghaied."

The judge asked whether Toth had been given an opportunity to see his family before he was taken away after his arrest May 12, Asst. U. S. Atty. Edward O. Fernnell said he hadn't.

**No "Premature" Rule**

Holtzoff did not rule, because he said it would be "premature," on legality of a key provision of the uniform code for military justice. This is the one under which Toth was arrested. It permits the military services to arrest for court martial former servicemen who have been charged with crimes carrying a penalty of at least five years in prison in cases where civilian courts lack jurisdiction.

Two others accused along with Toth in connection with the slaying of a South Korean civilian in September, 1952, still are in the Air Force. They are Lt. George C. Schreiber and A. I. C. Thomas L.

## TO FIGHT TAX EXTENSION ON HOUSE FLOOR

By CHARLES F. BARRETT

WASHINGTON (AP) — The Eisenhower administration headed today into a bruising House floor battle over extension of the excess profits tax—after triumphantly smashing a committee blockade against the bill.

Under strongest administration pressure, the House Rules Committee decided last night to bypass the tax writing House Ways and Means Committee and force an extension bill directly to the House floor.

The voice vote was reported to have been 7 to 4, with Democrats solidly opposing the move. It was the first victory in a long, bitter fight by the administration to extend the tax—now due to expire next Tuesday—for six more months.

### Threatens To Resign

The rules committee acted in the face of cries from Chairman Daniel Reed (R-NY) of the ways and means committee that the move was unconstitutional and unprecedented and was destroying "the very foundations of our legislative system."

At one point, Reed voiced a veiled threat to resign from the House, in which he has served 35 years.

But Republican Leader Halleck of Indiana argued that Reed was frustrating the will of the President, the will of the House and the

## Fire Destroys Home, Police Build New One

KNOXVILLE, Tenn. (AP) — Last February, Mrs. M. R. Steelman cried softly in the rain as she looked at blackened timbers and gray ashes — all that remained of the small home she had built herself.

Today, she's got a new home — a three-room, cinder-block house standing on the same spot — built

will of the people by calling off all ways and means committee meetings to block action.

The admittedly drastic maneuver to bypass the tax committee was the only way left to get action, Halleck insisted.

It was not clear immediately when the showdown in the House would come. Speaker Joseph W. Martin (R-Mass.) indicated it might be Monday. The administration braced for a storm of hot protests, even more against the procedure involved than against the tax itself.

### Administration Confident

The first vote of the House will come on approving the procedure. Should the administration lose, the bill again would be blocked. House GOP leaders said they were confident that when the chips were down, they would win. Reed said he would not concede that a majority of the House "will endorse this unprecedented grab for power on the part of the rules committee."

Normally, the rules committee clears a bill for House action only after it has been approved by a legislative committee. Halleck insisted there were precedents for the bypassing, but this was sharply disputed by ways and means members.

## Child Dies In Tank Escaping From Reds

STOCKHOLM (AP)—Latvian refugees have erected a stone as a memorial at the grave of blonde little Inesa, 2½, who died from suffocation in her hiding place in an empty water tank of a Soviet trawler on which she was trying to escape.

The child's father and mother and two other Latvian men arrived at the Swedish island of Gotland with the crew of the trawler imprisoned at gunpoint in the cabin.

The captain of the trawler arranged the break by secreting his friends and the child on the ship. The father and child hid in the water tank, but a member of the crew noted the lid of the tank was open after the ship got under way and clapped it shut. The father told about his ordeal later.

Little Inesa began to cry. Desperately the father went to work with his pen knife trying to whistle an air hole in the rubber packing of the intake.

"I got frightfully upset and as I felt I might never make it, I said

to myself, 'Knock, even if it means Siberia.' Then I faded out."

Just then the captain, who had imprisoned his four-man crew in a cabin, opened the tank. The father was unconscious but the child was dead.

The four refugees were the second group to break out of the virtually impenetrable iron curtain around Latvia to Sweden in seven years. The Swedish government has given them political asylum.

## Pennsylvania Tax Package May Include Levy On New And Used Automobiles; Leaders Confer

HARRISBURG (AP)—A new tax package, possibly including a sales levy on new and used automobiles, appeared to be in the making today.

Legislative sources, who declined quotation by name, said the four-part program—designed to raise between 100 and 120 millions—is being considered by Gov. John S. Fine in conference with Republican and Democratic leaders.

Other parts of the program may also include increasing the four cents a pack cigarette tax to five cents, a 10 per cent levy on cigars and smoking tobacco and extending eight mills of the gross receipts tax to include gas companies.

The governor hosted a two-hour bi-partisan conference here yesterday. The conferees—six Republicans and five Democrats—will meet again Monday to receive a compilation of possible yields from a host of possible levies.

**Make "Good Start"**  
Fine said "a good start" was made toward working out a bi-partisan agreement to close a \$118 million dollar gap in the state's \$1,400,000,000 budget for the current biennium.

A veil of secrecy surrounded the two-hour conference but it was learned that a wide variety of suggested taxes entered into the discussions. They included all the proposed levies that have been kicked around during the long tax deadlock such as imposts on hotel rooms, amusement admissions, soft drinks, luxuries, utility service bills and increases in liquor taxes.

The Democratic members of the conference listened to the proposals but didn't agree to any of them. The secrecy was reported to have been imposed so that the Republican leadership could submit the newest tax package, when finally hammered out, to the Republican House caucus next week without advance publicity.

### Need 105 To Pass

Democrats have served notice the Republicans must show 90 votes in the House for any specific taxes before they would consider providing the remaining 15 votes. It takes 105 votes to pass a bill in the House.

The automobile sales tax, authoritative spokesmen said, would yield between 50 and 60 millions a biennium at a rate of between 2 and 2½ per cent.

Eight millions would come in from the gross receipts tax on gas companies and 22 millions more from the cigarette tax boost. The tobacco products tax yield was unestimated.

The tax situation held the attention of both the House and Senate before they adjourned yesterday. The House returns Monday but the upper branch is now in recess until July 6, a week later.

### New "Agreement"

Fine told a newsman after the tax conference that "we may be approaching an agreement later on."

Prior to the interview, he issued a brief statement declaring: "We had a very pleasant conference. The entire tax field and the needs of the commonwealth were canvassed. We shall meet again Monday morning."

Although Fine instructed conferees to keep the proceedings a secret, one of them said the governor failed to receive "a positive agreement" from Democrats on a specific tax program.

"The Democratic leaders took the attitude that Republicans must come up with a specific tax package acceptable to both sides," that source said in declining to be identified. "In return, the Democratic leaders want Republican support

for Democratic-backed legislation."

### "No Trading"

The source listed legislative re-apportionment, fair employment practices and a constitutional convention as possible issues which Republicans would have to support if they are to get Democratic tax votes.

Asked if Democrats were asking to trade tax votes for some of their pet legislation, Fine said: "There has been no trading at all."

Those participating in the conference with Fine were: Sen. M. Harvey Taylor, Republican state chairman; House Speaker Charles C. Smith, Rep. Albert W. Johnson, Republican House leader; Rep. Robert F. Kent, Republican House whip; Sen. Rowland B. Mahany, Republican Senate leader; Sen. John H. Dent, Democratic Senate leader; Rep. H. G. Andrews, Democratic House leader; Rep. Albert S. Readinger, Democratic House caucus chairman; Rep. Joseph J. Hersch, Democratic House whip; and Miss Genevieve Blatt, secretary of the Democratic state committee. Miss Blatt represented Maurice Splain Jr., Democratic state chairman, who left the city after setting up the conference with Taylor.

## Flow Of Pakistan Wheat Starts Today

WASHINGTON (AP)—The first installment of a million-ton gift of wheat from the U. S. starts for Pakistan today.

President Eisenhower yesterday signed into law the bill making the grant, out of surplus stocks bought by the government. He said, "Our sincere hopes for peace and prosperity go with this grain."

The "Anchorage Victory" sails from Baltimore today with about 9,600 tons of wheat, the first package of the amount authorized by the legislation—up to one million tons.

Congress took only 15 days to complete action on the President's request for emergency supplies to avert famine in drought-stricken Pakistan.

### CHECK ON CHECK NEEDED

WELLINGTON, Kas. (AP)—Auto dealer Herb Etter, in a hurry to start a business trip, raised no questions when a customer who identified himself as Norman Good of Blackwell, Okla., proposed to write a \$1,775 check for a car he had just bought.

A month later, the check drawn on a Blackwell bank, bounced sky-high. Etter looked at the signature, conceded bleakly he'd fallen for an old one. The signature, was "N. O. Good."

## U. N. AND RHEE ARE CLOSER TO UNDERSTANDING

SEOUL (AP)—President Eisenhower's truce troubleshooter conferred with stubborn Syngman Rhee today and scheduled another talk tomorrow amid hints they might reach an understanding on a Korean truce. The second meeting is expected to be held in the afternoon.

SEOUL (AP)—President Eisenhower's special envoy and South Korea's aged, intractable President Syngman Rhee conferred at length today and it was hinted later they might reach an understanding on the armistice crisis.

The emissary, Assistant U. S. Secretary of State Walter S. Robertson, talked with Rhee for two hours and 45 minutes. Robertson told newsmen:

"We hope we are making progress in removing misunderstandings."

The Korean Public Information Office quoted Rhee as saying the discussions had been "very good" and that an understanding might be reached.

Beyond that, there were no in-

indications of how much they had eased the crisis created by Rhee's insistence on drastic revision of the armistice terms—all but signed by the U. N. Command and the Communists after nearly two years of hard bargaining.

The truce teams on June 9 had removed their last major obstacle to an armistice when they agreed on a formula for disposing of Chinese and North Korean war prisoners refusing to return to Red rule.

However, the expected formalities for announcing complete agreement were interrupted spectacularly by the release and escape of more than 27,000 anti-Communist Korean prisoners last week on Rhee's orders.

### Tense Atmosphere

It was in this tense atmosphere that Robertson began his conferences with Rhee.

After the first conference, Rhee said "Mr. Robertson has brought good ideas and our mutual understanding is being greatly improved." The Public Information Office added in a statement:

"During the first part of the conference Prime Minister Paik Too Chin, Foreign Minister Pyun Yung Tai and Defense Minister Shin Tai Yung were also present, but later President Rhee had exclusive talks with Mr. Robertson."

In the afternoon Robertson called on the foreign minister, one of the most outspoken opponents of a truce.

Meanwhile, South Korean officials and foreign diplomats showed

more than passing interest in President Eisenhower's reported willingness to send a man high in the U. S. government to talk truce terms with Rhee.

Sources close to Rhee suggested he would not be unwilling to meet Eisenhower outside Korea, although Eisenhower gave no indication he would attend such a meeting.

National Assembly Vice Speaker Yoon Chi Yung said "there might be a possibility" of an alliance between South Korea and Nationalist China if a truce is signed and South Korea fights on alone. Reports circulated that secret talks might be under way to bring in five Nationalist divisions to replace U. S. forces in case of a separate truce.

Pyun said later, "Helpful vistas were opened."

Robertson made no comment on that meeting.

## Four Towns Will Lose Rail Service

HARRISBURG (AP)—The Erie Railroad today has Public Utility Commission approval to abandon passenger service within 20 days to four Pike County communities.

Mill Rife, Pond Eddy, Parkers Glen and Westcolank are affected in yesterday's PUC decision. Two trains running between Port Jervis, N. Y., and Binghamton, N. Y., presently stop at the four points.

The order also allows Erie to discontinue service by these trains to Shohola, Lackawanna, Susquehanna and Great Bend, in Pike and Susquehanna Counties. These towns are now served by other trains.

The province of Ontario, Canada, extends 1,000 miles east and west, as well as north and south.

## Sunday School Lesson

Rev. Dr. Howard R. and Margaret C. Gold

**PAUL'S JOY IN CHRIST**  
Philippians 1:12-27

Memory verse: The peace of God, which passes all understanding, will keep your hearts and your minds in Christ Jesus, Phil. 4:7.

Happiness is highly prized and eagerly sought after. It is, however, an elusive thing and not to be gained by direct effort. It is a by-product, obtained while striving for something higher. With joy it is much the same, Paul's letter to the Christians at Philippi is pitched on a note of joy. Reading it through one would think the writer had many reasons for being happy. And so he did, but not according to the worldly causes for happiness.

Since we have had several lessons on Paul and his experiences it is fitting that we do a bit of reviewing. We first met him on the road to Damascus. His mission was to persecute the Christians of that city. On the way his spiritual eyes were opened and he saw the dreadfully wrong course he had taken. He became a changed man. But the new course chosen led him into all sorts of difficulties. He was suspected by some and hated by others. As a planter of churches he was successful but at what cost of effort, patience and disappointments! Add to that his own listing of "perils" by

land and sea, by robbers, by his own countrymen and by his own Jewish opponents. He knew the inside of prisons. He writes the joyous letter to the church at Philippi while chained to a guard as a prisoner in Rome.

Why this boundless joy? He had found his God through Christ Jesus. He had dedicated his great energies to the preaching of the new Gospel. He did not seek joy; he found it along the way. He seems to have been one of the happiest men of his time. It is possible for any one to have that same experience by accepting Jesus as Lord and Saviour. One source of satisfaction and joy is that in Jesus is found the perfect pattern for any life. His life is the perfect example. Never man spoke like this Man declared listeners to what He had to say. Never men had acted as He did towards those whom others despised. Hatred, which is so easily aroused by op-

ponents, never appeared in Him except on rare occasions when He showed a righteous wrath. He prayed for those who caused and those who carried out His crucifixion. The first martyr, Stephen, had caught the spirit of his Lord and prayed likewise while he was stoned to death. All this no doubt impressed Paul as it does any man.

But there is a better reason for the Christian's joy. By His resurrection Jesus lifted the dark veil which hung between this life and the life beyond. There is still present much mystery about death and the resurrection. But Paul left no doubt that any true believer would share a blissful hereafter with Christ. Upon the resurrection Paul based the validity of the Gospel he preached. So certain was he of a glorious hereafter that he said: "My desire is to depart and be with Christ." And then he added: "But to remain in the flesh is more necessary on your account." He still had work to do for Christ.

In doing that work, Paul, as all good Christians, enjoyed a Divine Companionship. To him Jesus was an Abiding Presence. So in addition to the Roman guard there was another who guarded him. Of all people the Christian has the right to be happy. His faith will be a sustaining force for any tasks however difficult they may be. As long as men engage in preaching and living the Gospel they will have the "Peace of God, which passes all understanding."

# GIRDERS

You must have girders to build a skyscraper. Only a mesh-work of steel can endure the weight, strain and atmospheric variations to which such a structure is subject.

And you must have girders to build a man . . . him to stand erect against the pressures and onslaughts of human experience.

The Church builds the girders into a man's life: In childhood it sets in place the mighty "uprights" that will mold his stature later. In youth it reinforces these with "cross-beams" that solidify his moral character. Day by day, all through adulthood, the Church "rivets" into their proper place the truths and ideals and aims that enable him to reach his full stature.

Faithfully, generously give strength to the Church. Faithfully and generously it is building strength into our lives.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church, regularly and read your Bible daily.

## Dean Warns Reds On Starting War

WASHINGTON (AP)—Gordon Dean has bowed out as head of America's atomic program with advice to Russia that starting a war would expose her to a rain of U. S. A-bombs "of almost any size."

That was the picture Dean painted at a farewell news conference yesterday before his retirement next Tuesday, after four years in the job, as chairman of the Atomic Energy Commission (AEC).

"It would be a great pity," he said, "if Russia started a war because she assumed the United States did not have the power to retaliate to the point of destruction."
